Members of the Executive Committee are reminded that a meeting of that group will convene prior to the General Meeting.

Enclosed is the annual dues statement. Please review the form and return it with a check for the appropriate amount to Treasurer Joe Maginnis as soon as possible.

My earliest recollections of New Jersey are holiday motor trips to my Grandparents' home from Westchester. The Holland Tunnel was a bit frightening because I worried that ships might run into it; my brothers preferred to play on that fear rather than enlighten me. Jersey City was a problem because it was occupied by people who mistook Thanksgiving for Halloween. Then came the unnecessarily high and overly narrow Skyway. But that was followed by the marvels scattered over the Newark Airport and on a lucky day. I would be treated to a goodly number of silver airships landing and taking off. Enough magic to replay in memory all the way to New Brunswick.

BAER  
NOT  
AVAILABLE

There is still a lot of magic about the airport although there have been a lot of changes. It is usually passed on the Turnpike side now, the planes are bigger and lack propellers, and it is infinitely more important to our state and country. The feature of the General Meeting will be a presentation by Susan Baer, Manager of the Newark International Airport. Although it was only a passive participant in the recent unpleasant events, Newark International Airport is still a subject of great interest to us former boys.

The subsequent meeting will be addressed by Dr. Michael Osnato, Superintendent of the Montclair School System(10/12/01). The Ladies Day luncheon follows on 10/18/01.

My first view of Montclair was from a Bloomfield Avenue trolley that was on its way to Pennsylvania Station, Newark . Balancing my luggage on my knees, the only memorable places I saw in the 'downtown' were an 'Opera House' converted into a movie palace - but New Brunswick had one of those - and the 'Butlers and Chauffers Club' = probably the only one in the State, there certainly was none in New Brunswick. Those places are long since gone. But, there remain many buildings that represent the values and style that are the basis of the character that we like to associate with Montclair- no matter how new we are to our Township. The program for the General Meeting will feature a presentation by Jerry Mosier about the Montclair Historical Society's proposal to establish a formal Historic District. This will mean preservation of much that has meaning and value.

The subsequent meeting will be addressed by Dr. Michael Osnato, Superintendent of the Montclair School System(10/12/01). The Ladies Day luncheon follows on 10/18/01.
